-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

1. This action is in response to applicant's amendment received on September 23<sup>rd</sup>, 2008.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 5-6, and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Oliver (4,671,444) for the same reasons set forth in paragraph 5 of the previous office action mailed June 23<sup>rd</sup>, 2008.

Regarding the amendment to claims 1 and 6, referring to Fig. 14 and the figure below, there is no gap between the designated first upper surface portion of the pusher 228 and protrusion surface 316. In addition, there is no gap between the designated second upper surface portion and the protrusion surface, as the two surfaces are part of the same pusher, and are thereby connected without a gap.

### ***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 3 and 7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Oliver (4,671,444) in view of Kufel (3,029,436) for the same reasons set forth in paragraph 7 of the previous office action, *supra*.

### ***Response to Arguments***

6. Applicant's arguments filed September 23<sup>rd</sup>, 2008 have been fully considered but they are not persuasive.

Applicant contends that there is a gap between Oliver's upper surface 302 and inclined surface of the pusher. However it should be noted that the claims state "there

is no gap between an upper surface of the pusher and the protrusion surface." Oliver's *pusher* 228 has an upper surface as shown in the figure above. As shown, there is no gap between that upper surface and the protrusion surface.

For the reasons above, the grounds of rejection are deemed proper.

### ***Conclusion***

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
8. A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **LINDSAY M. LOW** whose telephone number is (571)272-1196. The examiner can normally be reached on **Monday thru Friday 7:30 to 5:00**.
